

# BOTH SIDES FEAR TO LET MACHINERY DIE

## Sinn Feiners Not Anxious to Try Out Issue With British Forces.

# CABINET REMAINS FIRM

## Feel Test Must Be Made Some Time, and Might as Well Come Now.

Special Cable Dispatch to THE SUN and THE NEW YORK HERALD, Copyright, 1920, by THE SUN and THE NEW YORK HERALD.

LONDON, Aug. 29.—Efforts to save the life of Terence MacSwiney, Lord Mayor of Cork, based upon definite information that his death will set off a powder magazine in Ireland, have been revived both in Government and Irish quarters in London in the last two days. Sinn Fein representatives here are tacitly backing the appeals as they are not anxious to try out an issue of strength with the present Government forces in Ireland. It is said that several persons prominent in the Government are not willing that the campaign to restore law and order be brought to what they are told would be a little short of a general uprising of the Irish people if Mayor MacSwiney dies.

The continuing Cabinet opinion, however, is reported to be that a struggle must be made some time or other to end the campaign of murder of Irish police and officials and to oust the irreconcilable leaders of the Sinn Fein. The ministers say that it might as well come now while the forces of the Crown are adequate to cope with it.

## Soldiers Shoot Bystanders.

THE SUN and NEW YORK HERALD correspondent today writes from London that soldiers who had just returned from Kerry, where he reports the troops are deeply irritated by the conduct of the soldiers. He says the soldiers are impatiently young boys and are not to be indiscriminately in their efforts to impress the populace and as a result they have killed several innocent bystanders in that district. It was in Kerry that the Sinn Fein and other members of the movement to keep order themselves proved most effective. Now that the military are there the killings and burnings have increased.

## Manix Changes Plans.

It also is learned in London that the treatment of Mayor MacSwiney has changed the plans of Archbishop Mannix of Australia. The turbulent prelate is now going to Rome to present his appeals. He is staying in London now to see through his fight for permission to land in Ireland. The Government has offered to let him go there to see his family if he promises to make no speeches, to attend no meetings and to receive no addresses, which conditions he refuses.

It is learned also that he has refused several offers to emigrate him across the Channel since the police surveillance has been relaxed. He returned to Nazareth House yesterday from a visit to the country and announced that he would stay there until the case was fought out. He refused to comment on the New York dock strike in his behalf except to say that he had heard before leaving New York that longshoremen sympathizers had threatened the workers get revenue from the stewards who, it is reported, protested against Archbishop Mannix being aboard the steamship "Baltic."

The condition of Mayor MacSwiney to-night is reported as unchanged. He is suffering severely from the old lung complication and prison physicians insist that he will not survive a fatal collapse any minute, though it is possible for a healthy man to live a month without food.

# \$150,000,000 LOAN TO FRANCE REPORTED

## Paris Says American Banks Conclude Terms.

PARIS, Aug. 29.—Jean Parmentier, administrator of the Ministry of Finance, who is in New York city negotiating with American bankers for payment of the French loan of \$250,000,000 from the United States, has arranged for a loan of \$150,000,000 from American banks, according to this morning's newspapers. This money will be devoted to payment of the French loan, which is due in October, and the French treasury will provide the balance of \$100,000,000.

M. Parmentier arrived here August 14 and since then has been conferring with bankers of this city and Washington regarding the loan.

It was reported last week that it was only a matter of days until the amount and conditions of the loan would be announced. The money was variously reported as being from \$100,000,000 to \$200,000,000 and the terms as 8 per cent, and the period fifteen years. It was said the notes would have no special exchange features but would be a redemption feature similar to the sinking fund redemption feature of the recently floated \$25,000,000 Swiss loan.

# RECOVERY OF FRANCE 'NEW WAR MIRACLE'

## H. S. Houston Reviews Trip to Devastated Regions.

The recovery of the French people from the effects of the war is characterized as another "miracle of the Marne" by Herbert S. Houston, New York publisher, in an article in the September number of World magazine. Mr. Houston, who recently returned from a trip of investigation to Paris, offers statistics showing remarkable rehabilitation in former devastated regions, where German invaders wrought havoc in the industrial, farming and mining sections.

Mr. Houston points out that, with Government support, including loans totaling \$9,000,000,000 for agricultural and industrial reconstruction in "devastated departments," the French people have reaped \$345 out of 6,445 schools existing before the war, built or rebuilt 28,200 temporary wooden and permanent wooden dwellings and erected 28,500 wooden barracks. He places houses destroyed and cleared 3,339,000 hectares (a hectare is about 2.47 acres) out of 3,500,000 of barbed wire and trenches. The population of the devastated regions has increased from 2,000,000 to more than 4,000,000—approximately three-quarters of the pre-war population.

American committees have done much to help France rebuild. Mr. Houston declares, adding that introduction of a new machine to the French peasant probably was America's best contribution.

# PLAN TO HARMONIZE IMMIGRATION LAWS.

## International Bureau Will Send Out Queries.

GENEVA, Aug. 28.—Full information regarding immigration, especially laws and regulations dealing with labor immigrants, will be asked of the forty-two Governments which are members of the International Labor Bureau, according to a decision of the Administrative Council of the bureau, which met here today. A questionnaire will be drawn up by the bureau which will be sent to the forty-two Governments, D. C. In 1919, asking Governments their opinion on harmonizing national legislation as a means of insuring equal treatment for foreign workers.

Replies will be requested by October 15. The council will hold its next meeting here in the spring.

# BULLETS KIL 11 IN BELFAST RIOT

Continued from First Page.

At least 11 persons were killed in the rioting in Belfast, Ireland, today. The rioting began at 10 o'clock and continued until 11 o'clock. The rioters were armed with stones, bricks and other missiles. The police were unable to control the rioters and were forced to fire. The rioters were driven back to their homes by the police. The rioting was the result of a dispute over the election of a new mayor for Belfast.

# REAL ESTATE NEWS, NOTES AND GOSSIP

## Material Prices Unaffected by New Freight Rates; Building Outlook Better.

"Spatter days," which, in the vernacular of the building trade, describes the readjustment period, are drawing to a close, according to the Dow Service Daily Building Reports. Nearly two years lack of consecutive or constant building construction effort, dislocated transportation facilities and consequent price uncertainty mark their demise with a decided turn betterward. The freight rate corrections of last week marked the change most conspicuously. Viewing the whole building prospect from the standpoint of the vendor of raw materials used by building manufacturers, down through the transportation, financial, contractual and labor factors at the threshold of the autumn building season and comparing it with the perspective as obtained from the same promontory ninety days ago, it is not possible to deny that the so-called building prospect is being drawn nearer to an early solution.

The week closed with a new 40 per cent freight rate increase in effect. The result upon building materials shows Hudson River cement brick lower by 10 cents, red brick lower by 10 cents, and a general upswing of the Irish people if Mayor MacSwiney dies.

And when these things are reported to the authorities, they are not to be taken into consideration. The rioting was the result of a dispute over the election of a new mayor for Belfast.
